Built for Practices That Want to Scale — Without Losing Their Margins
Most growth paths trade profit for growth. We help you grow and keep more of what you earn.

WHY THIS EXISTS

Most practices are pushed into two paths:

Scale fast — and watch margins tighten
Stay small — and limit long-term growth

Neither builds a strong, valuable business.

DSO Pricing was built for practices that want a third path:
Profitable, structured growth.

VISUAL SECTION (CENTERPIECE)

Which Growth Path Are You Building?

Fragile Growth

- Growing revenue, shrinking margins
- Reactive decision-making

- Vendor overwhelm
- Team strain
- Expansion without structure

Scalable Growth

- Margins protected at every stage
- Intentional, strategic decisions
- Curated partners aligned with growth
- Strong teams and systems
- Expansion with structure

BETTER PARTNERS. BETTER DECISIONS.

Most platforms give you more options.
We don't.

Because more options don't lead to better outcomes —
better alignment does.

With DSO Pricing, you get:

- A curated group of partners focused on improving margins

- Access to founders and experts who have scaled real practices
- Direct, real conversations that lead to faster, better decisions

---

BUILT FOR REAL-WORLD GROWTH

The environment is changing:

Costs are rising
Labor is unpredictable
Margins are tightening

Most practices react too late.

We help you stay ahead by:

- Strengthening cost structure through better pricing
- Simplifying partner and vendor decisions
- Supporting faster, more confident implementation

So your growth isn't chaotic —
it's controlled and built to last.

WHO THIS IS FOR

This is for practices that:

- Are doing $1M+ and want to protect and grow margins
- Care about profitability — not just top-line revenue
- Are scaling and need stronger systems and partners
- Want to stay in control as they grow

This is NOT for:

- Practices chasing short-term wins
- Owners who don’t track performance or profitability
