HERO

Independent. Strategic. Operator-Led.

Built for practices that want to scale with discipline, increase EBITDA, and stay in control.

WHY THIS EXISTS

Growth is being done wrong.

Some scale fast — and lose margin.
Some stay small — and get stuck.

Both paths have risk.

We built DSO Pricing for operators who want neither.

FRAGILE GROWTH VS SCALABLE GROWTH

Fragile Growth

- Growing revenue, shrinking margins
- Reactive decisions
- Vendor chaos

- Expansion without structure

Scalable Growth

- Margin protected at every stage
- Intentional decisions
- Curated partners
- Expansion with structure

Same growth.
Very different outcomes.

CURATED, NOT CROWDED

Most groups give you more options.

We don’t.

More vendors don’t create better outcomes.
Better decisions do.

We focus on:

- High-impact partners
- Proven operators

- Margin alignment

If it doesn't move the business forward — it doesn't belong here.

OPERATOR ACCESS

No reps. No layers.

You get direct access to:

- Operators
- Founders
- People who've solved it

Real conversations create better decisions.

BUILT FOR REAL OPERATORS

Costs are rising.
Labor is unstable.
Markets are shifting.

Most practices react.

We help you:

- Protect margin
- Simplify decisions
- Build structure
- Scale with control

We don’t just unlock pricing.
We help you use it.

WHO THIS IS FOR

Operators who:

- Think long-term
- Build with discipline
- Want real leverage

Not for everyone.
That’s intentional.

VALUES

Kindness
