THE REALITY

Most practices aren’t failing.
They’re just not built for pressure.

They’re growing — but margins are tighter than they should be, costs are rising, and decisions are made without full visibility.

Some scale fast and lose control.
Others stay small and fall behind.

The ones who win build with structure.

WHAT DSO PRICING IS

A smarter way to buy, build, and grow.

DSO Pricing gives you:

- **DSO-level pricing on the products you already use**
- **Access to curated service providers, consultants, and experts**
- **Strategic support to help you scale with structure**

Consolidate all your procurement processes and vendors in one place.

HOW IT WORKS

We aggregate buying power across thousands of practices, negotiate preferred pricing once, and give you access instantly — without changing how you run your business.

You keep control.
You get better terms.
You make better decisions.

START WHERE IT MATTERS

You don't need everything fixed.
You need the right thing fixed first.

Start with the area where margin or growth is leaking most.

We help you solve that first.

Then expand:

- **Supplies and procurement**
- **Services and experts**
- **Partner access**
- **Growth support**

Always curated.
Never overwhelming.

WHAT YOUR MEMBERSHIP UNLOCKS

- **10%+ preferred pricing with select partners**
- **Exclusive offers, bonuses, and reduced fees**
- **Access to trusted Backstage service providers, consultants, and coaches**
- **A centralized way to source products, services, and growth support**
- **Curated solutions built for operators scaling intentionally**

Benefits vary by partner — but every relationship is designed to give you better access, better terms, and better outcomes.

PROCUREMENT POWER

Everything you need — in one place.

- **All your vendors, centralized**
- **Real-time pricing and availability across suppliers**
- **AI-driven inventory management**
- **Streamlined ordering and cost control**

Same products.
Better visibility.
Better decisions.

ALREADY HAVE VENDORS?

Perfect.

You can keep working with the partners you trust.

DSO Pricing simply gives you:

- **better pricing**
- **better terms**
- **better access**

Where it actually matters.

WHO THIS IS FOR

Two types of operators win here.

TRACK 1 — THE BUILDER

1–2 Locations | $1M–$2M+

You're growing — but:

- **Costs feel higher than they should**
- **Decisions feel fragmented**
- **You don't have a full team yet**

You need:

- **Better pricing**
- **Trusted partners**
- **Smarter guidance**

We help you scale without guessing.

TRACK 2 — THE OPERATOR

2–5 Locations | Growing Group

You're scaling — but:

- **Systems aren't fully aligned**
- **Vendors are fragmented**
- **Margin needs protection**

You need:

- **Consolidation**
- **Structure**
- **Better leverage**

We help you scale with control.

THE MATH

Margin protection is one of the fastest ways to increase profitability.

If your practice collects $4M:

2% improvement = $80,000 per year

Membership: $399 per month
$4,788 per year

Most practices see meaningful savings within the first 30–60 days.

Small shift.
Massive impact.

THE REAL OUTCOME

This isn't about pricing.

It's about:

- **Stronger margins**
- **Smarter decisions**
- **Better partners**
- **Real structure**

So whether you:

- **Add locations**
- **Expand your team**
- **Increase income**
- **Prepare for a transition**

You're building from strength — not guesswork.

FINAL CTA

Build a stronger, more scalable dental business — on your terms.
